# CHARITY AIMS

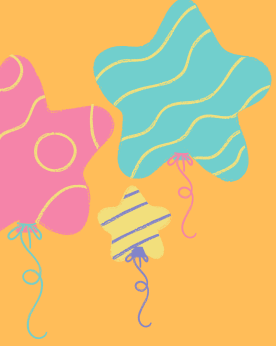

"YOUR FEELINGS ARE VALID"

Supporting Humanity aims to help empower, support and uplift all members of the community by de-stigmatising mental health and beating loneliness. We aim to address some of the most neglected and overlooked issues including mental health and bereavement.

A problem shared is a problem halved and that is at the heart of what we aim to do; support people by providing a safe place to turn to and providing vital resources to those in need.

### **Q: What is your role at Supporting Humanity?**

I love my role at SH, I initially joined as photographer and content creator for the social media team. And now I'm the social media team manager Alhamdulillah, I remember Tahreem asking me to take the role and me being too afraid to accept. But I'm really glad I did, because I have a wonderful team I get to lead!

### **Q: What motivated you to join the charity?**

I joined because I wanted to pursue my passion for photography in a way that benefitted others. Apart from that, I just wanted to have something to do to keep me busy during university.

### **Q: What is your favourite memory of SH so far/A highlight?**

I don't really have any favourite memories because I love all of my time spent with the charity. Though I think a defining moment for me was when I came to realise people loved me for who I am, even if I am shy and quiet.

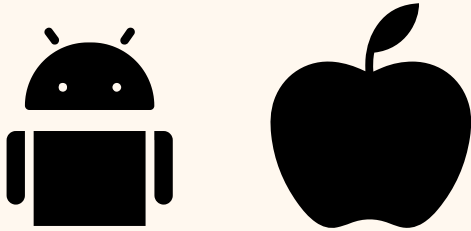

SH is one big family and they've made me feel like I'm an important part of it. They always give credit where it is due, and always make me feel more confident about myself and my photography. I always say this but they were the first people to really support me towards my dreams of being a photographer.

**Q: Tell us a fun fact about yourself!**

I'm addicted to coffee.

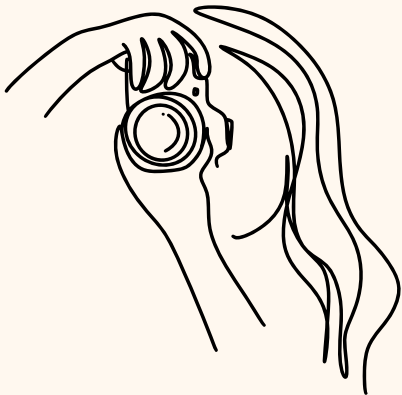

**Q: Are you Team Apple or Android?**

This is tricky... I own a Samsung right now but tbh I've always been an Apple fan. Will probably go back to Apple after this.

**Q: Recommend your favourite movie, series or book!**

I love reading so I couldn't tell you my favourite series or book without listing 10 different ones. But one of my favourite series is The Infernal Devices and one of my favourite books is Signs on the Horizons.

**Q: What would be your dream SH trip?**

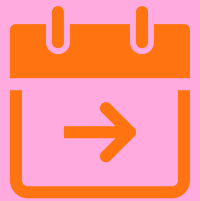

Probably to a trampoline park or adventure course and see everyone turn into a bunch of kids having a lot of fun. I think that would get everyone laughing. I'd love to go anywhere abroad with SH, somewhere I can take lots of photos.

**Q: If you could have any superpower, what would it be and why?**

I'd want to be able to teleport anywhere in the world. That way I could see my family and friends whenever I wish.
